ABOUT ESAG

ABOUT **EASA SALEH AL GURG GROUP**

Founded in 1960, by H.E. Easa Saleh Al Gurg (KCVO, CBE) the Easa Saleh Al Gurg Group LLC is a multi-divisional conglomerate with over 27 companies. The Group has a range of diverse product and business interests that predominantly include retail, building and construction, industrial, real estate and joint ventures. With an active presence throughout UAE, Oman, Saudi Arabia; its reach stretches across Asia, Middle East and the African continent, parts of America, Australia and New Zealand.

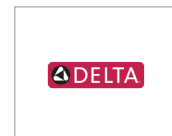

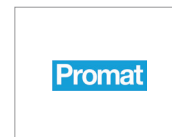

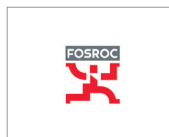

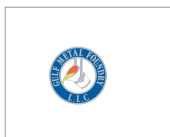

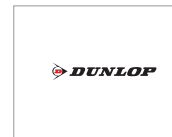

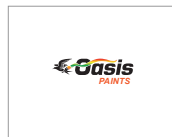

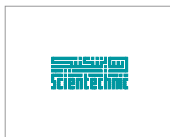

GROUP OVERVIEW

GROUP PORTFOLIO

Key Companies:

MESSAGE FROM THE CHAIRMAN

To embark on a journey of success one needs preparedness, foresight, and strategy. For Easa Saleh Al Gurg Group (ESAG), these tools have led to a path of steady growth and success; creating a multi-dimensional conglomerate with portfolio of complementary business.

We started in Dubai in 1960, as a trading company and today no business sector or geographical market is remote for us. ESAG endeavors to be one of the most competitive business houses with emphasis on efficiency in operations, reliability for customers, thrust on development and value building for our partners. To achieve this, we utilize our experience and the expertise of our qualified professionals to provide maximum benefit; which encourages repeat patronage together, sharing best business practices and combining resources, financial, managerial and operational skills to make a difference.

We look for long term sustainable growth by selecting sectors and partnerships where we see ourselves having a distinctive role, now and in the future. Today, through our well-recognized market presence and strong product portfolio we are poised to make paradigm shift in our growth. In our constant pursuit of new brands and business, ESAG will continue to grow organically in our areas of strength, leveraging opportunities, which are aligned with our values.

H.E. Easa Saleh Al Gurg, KCVO CBE Chairman

ABOUT AL GURG PAINTS

Established in 1989, Al Gurg Paints, part of the Easa Saleh Al Gurg Group, functions as a local supplier and manufacturer of paints, catering to the industrial, decorative, wood and floor coatings, export and designer texture client segments. Being awarded the ISO 9001/2015 certification as well as the Green Building Certification we strive to make environmentally friendly coatings while maintaining total integrity, transparency and professionalism. Comprising Oasis Paints and Viero, we ensure that our products are high-grade. With our own manufacturing facility, R&D department, regular quality control measures and a dedicated team, we provide efficient and effective solutions to your requirements.

Local production capacity : 19 million litres
Number of employees : 132

OUR **ENVIRONMENTAL POLICY**

We maintain a range of low or zero VOC (Volatile Organic Compounds) products adhering to strict Industry standards that are accepted globally, with our decorative product range free from lead, cadmium and chromates. Most of the raw materials are sourced locally which reduces the carbon foot print. We have installed Solvent Recovery Units where the solvents are recycled and re-used in production on a continuous basis.

LOCAL **RESEARCH & DEVELOPMENT**

Research and Development is an integral part of our operations. Our R&D professionals develop high quality and environmentally friendly coatings. Product innovation and development is at the forefront, with products enduring a series of tests to suit various weather conditions. The coatings are tested in accordance to international standards, ensuring product consistency, quality and performance.

AL GURG PAINT WORKS **(AGPW)**

Al Gurg Painting Works undertakes Supply & Apply projects and has executed painting jobs for commercial & residential buildings, hotels, villas, cafes, restaurants and lounges. We are one of the few UAE based paint companies who undertake supply and application projects. We ensure that all projects are completed on time while meeting the client's requirements and quality standards.

SPECIFICATIONS & **COLOUR CONSULTANCY**

Our specification and design consultants provide technical support with regards to choice of colours, textures, finishes, appropriate paint systems and the right look and feel, in line with other coordinates like furniture, upholstery and flooring. Our specification team helps designers and architects to choose the right products for their projects. We also conceptualise creative designs for home owners, as per their requirements.

MANUFACTURING PROCESS

As part of the in-house manufacturing process our specialists ensure that each step is carried out with care and precision, focusing on high quality, thorough inspections and a systematic approach. The steps below, state our daily procedures.

1. Receipt of customer order

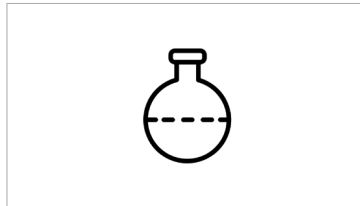

2. Purchase of raw materials
(if not available in stock)

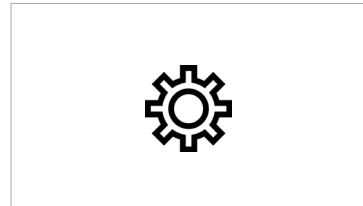

3. Issuing of batch card from
SAP for manufacturing

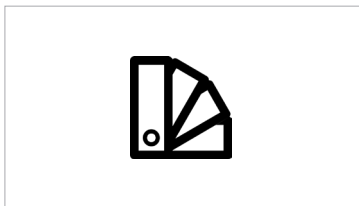

4. Prebatching / Issue of raw
materials for production

5. Grinding of different raw
materials as per formulation

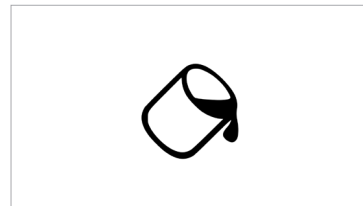

6. Thinning down to achieve
desired properties

7. Tinting/ colour matching
to achieve desired shade (if
required)

8. Final testing of batch by
QC

9. Filling of paints into cans

10. Dispatch of finished
goods to customer's location

DECORATIVE & **ARCHITECTURAL PAINTS**

Our decorative paints segment focuses on both trade and projects. Under trade, we currently have three retail outlets and 45 outlets in the dealership network. Paints in this segment are UV stable, water-based, low VOC and are environmentally friendly, making them suitable for facade, interior and exterior plaster walls, ceilings and concrete. Oasis Trushield exterior emulsions and Trumastic Interior emulsions are the two product categories in this segment.

Trumastic Interior Emulsions

Trushield Exterior Emulsions

INDUSTRIAL COATINGS

Our Industrial Coatings are classified into two distinct ranges - General Industrial (GI) Coatings and High Performance Protective Coatings (HPC) or Heavy-Duty Coatings. While the GI range caters primarily to industries such as pre-engineered buildings (PEB's), port-a-cabins, drums and barrels, scaffolding, fabrications etc., the HPC range caters to the oil & gas and other heavy industry requirements. This range includes zinc-based epoxies, polymethane paints and zinc silicates.

Protective Coatings

General Industrial Coatings

WOOD COATINGS

Our wood coatings include sealers, lacquers and stains that are premium and fast drying to give a long lasting appearance, preserving the natural beauty of wood. These coatings can be diluted either by using solvent or water. This results in an eco-friendly performance for both interior and exterior surfaces. Both the interior and exterior wood coatings prevent decay, dirt deposits, are highly durable, water and UV resistant, tough and flexible.

FLOOR COATINGS

Our floor coatings are designed to be long lasting, durable and eco-friendly. These coatings which are epoxy and PU based, contain anti-carbonation properties. They are also both pure acrylic and water based.

DESIGNER TEXTURES BY *Viero*

We have recently partnered with Viero to provide clients with exclusive, Italian based designer textures, suitable for feature walls. Viero is a brand that embodies an inventive spirit while exploring the world of design, architecture, contemporary art and professional craftsmanship to achieve a final product imbued with harmony and functionality, eco-sustainability and ease of use. Viero provides a variety of textures under this category.

QUALITY POLICY

Al Gurg Paints LLC, Sharjah, member of Easa Saleh Al Gurg Group LLC, is into manufacturing and supply of high quality industrial, decorative coatings for oil and gas, marine, petrochemical, residential & commercial structures and general industrial segments. Additionally it also has a wood coatings range aimed at providing superior coatings for the preservation & enhancement of wooden structures.

AGP shall set Quality standards which will aim to meet or exceed the expectations of our customers, business associates, employees and other relevant interested parties. For its fulfilment we shall ensure the following:

Internalize Quality Management Systems across the organization through actions and setting examples led by the senior management.

Continually improve our performance through periodic review of policies, systems, business processes, objectives, employee skills and performance of external service providers.

Achieve increasing levels of customer satisfaction through timely delivery of products and services.

Emphasis will be to impress the entire human capital of AGP on a continual basis that quality is not restricted only to products and services but also to systems, processes and environment and should be inherent to every individual working in the organization as well.

Comply with applicable statutory and regulatory requirements in a socially responsible manner.

Quality policy will be communicated to all employees and shall be made available to all interested parties.
